

WRITE YOUR FACULTY 4 LOVES "SQUARE INCH SEMINAR" TESTIMONY

"There is not a **square inch** in the whole domain of our human existence over which Christ, who is Sovereign over all, does not cry, Mine!" --Abraham Kuyper

Square Inch Seminars came out of the Stanford InterVarsity Christian Fellowship Graduate Christian Fellowship. Students reflected that the academy didn't understand them as Christians and churches didn't understand them as academics. They came up with the idea of short "TED" like talks that would help both the church and the campus understand what it looks like to love God/one another, your campus, your academic discipline and our world (aka known as the [Faculty Four Loves](#)).

This guide helps you discern and then share about God's action in your own square inch—whether that be your study, your experience or something you're interested in!
